Angekis®

SABER
LIGHT

FULL HD Conferencing Camera

Full HD 1080P

Crystal clear in Full HD

Utilising the highest quality sensors and a multi-glass lens, the Saber Light delivers class leading optics and crystal clear, life like video. The real world will feel pixelated by comparison.

Ultra Optix

Utilizing advanced imaging technology, Ultraoptix reduces 3D video noise. The result is a balanced image that renders the image with a clarity and sharpness that creates a more defined image.

10 Presets and more

Ensure a smooth conference by setting up 10 presets covering every person on the table. Presets can be controlled via the remote or via RS232 where you can set a huge 128 presets.
All the controls

We've covered every base to ensure you have full flexibilty to control the camera near end, far end and with multiple options including:IR remote,Visca and desktop app control NECC.

5x + 2x Zoom

5 x Optical + 2 x Digital zoom ensures you cover every detail in a small to medium sized conference room, with a completely lossless image ensuring crisp clear images with every frame.

Perfect your lighting

Weird backlighting, the room is dark,super bright lights washing out the image? Adjust the exposure, brightness, backlighting and more on screen all via the remote!

NECC & FECC

The Angekis on screen app gives you full control of the camera via mouse or keyboard near end whilst far end controls are covered by Sony Visca via keyboard or joystick controls.

Plug n Play

Connects to your favourite video conference app,cloud service or audio system via USB. Simply plug the camera intoyour laptop, PC and Mac. No drivers needed.

Best in Class

The Saber range has twice won Best in Class Video Conference Camera at the worlds largest AV expo at Integrate. Out ranking other big brands such as Sony, Panasonic, Logitech and more.

3 Year Warranty

Feel secure knowing your investment is covered well and truly beyond the industry standard.Thats how confident we are that you will love our products and that they will last!
